AUWAL SALELE

Computer Science Graduate | Artificial Intelligence & Web Development

Katsina State, Nigeria | 08101576643 | saleleiroauwal@gmail.com

PROFESSIONAL SUMMARY

Computer Science graduate (2026) from Federal University Dutse with academic and project interests in artificial intelligence, web development, and practical information systems. Experience exploring the design of AI-based health-related applications and web-based business management workflows. Interested in developing accessible, user-focused digital solutions, strengthening technical skills, and contributing to collaborative software and ICT teams.

CORE COMPETENCIES

Artificial Intelligence Concepts • Web Application Development • System Analysis and Design • Database Concepts • Problem Solving • Technical Research • Requirements Analysis • Documentation

SELECTED PROJECTS

AI-Based Food Health and Disease Risk Detector Using Deep Learning

- Academic project focused on applying deep learning to food-related health and disease-risk detection.
- Explored model-driven analysis, system requirements, and the design of an AI-supported application.

Ladies' Tailoring Business Management System

- Worked on the design and development of a web-based system for managing customer records, measurements, garments, and production stages.
- Defined role-based access for administrators, staff, and customers, alongside order-status tracking and customer notifications.

Real Estate & Construction Management System

- Developed a web-based platform for managing real estate projects, buildings, units, sales, payments, and construction milestones.
- Implemented role-based workflows for business administrators, project managers, verification officers, and customers, including progress verification and document management.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

Federal University Dutse | 2026

AREAS OF TECHNICAL INTEREST

Artificial Intelligence and Machine Learning • Front-End and Back-End Web Development • Database-Driven Applications • User Experience and Responsive Design • Business Process Automation
